

# The Democrat Party – A Tool of Satan

by

Phil Rasmussen

The founding of our nation was based on Judeo-Christian teachings, morals, and ethics. For 200+ years these values existed as the foundation that is basic to our laws. However over that time, small groups have chipped away at our laws by swaying legislatures and the courts to change, remove, or add wording that weakened the judicial system and consequently has led us into declining morals and ethics.

An excellent example of the liberalization of law is abortion. The topic of abortion is a divisive issue that permeates across the US in both politics and culture. Between the founding of our nation and the mid-1800s, abortion was not much of an issue either politically or socially. During this time, abortions were considered “women’s work” until the American Medical Association (AMA) in 1857, decided that midwives and others were not qualified to conduct abortions and that life began at conception, thus making abortions illegal. [[Hopkins Bloomberg Public Health](#)] [[Planned Parenthood](#)]

Making abortions illegal pushed the industry underground where all medical and legal control was lost. It wasn’t until 1967 that states started to liberalize abortion laws. California led this charge with its “Therapeutic Abortion Act.” Six years later (1973) the Roe v Wade decision became a law of the land. It is essential to understand that between 1857 and 1967 an abortion was essentially considered murder. With Roe v Wade, abortion was reclassified as a woman’s right and no longer considered murder.

However the [Unborn Victims of Violence Act of 2004](#) creates an interesting convolution of law. While the law exempts abortion as murder, it does identify that “[an embryo or fetus](#)” is a human. With the overturn of Roe v Wade and returning the abortion issue back to the states, the Act’s definition of human becomes an enticing definition to return abortions back to being considered murder.

This is only one example of how many of our laws have been watered down to the point that when a suspect is arrested, he/she faces multiple charges that can be used as bargaining chips in order to get a conviction.

Most of the changes that liberalized existing law have come primarily from Democrats. If we review the goals of the [CPUSA](#), we can see that communism (Satan) has seeped into the actions of Democrats and their party. For example, abortion discussions should only revolve around the original legal reasons of rape, incest, or mother’s life. There should not be any discussion as to “term limits” since the [Unborn Victims of Violence](#)

[Act of 2004](#) clearly defines the beginning of human life. Term limits should be limited to congressional terms and not the termination of Humans.

All federal, state, and local government employees, hired or elected, take an oath to defend the US Constitution, the nation, and our laws. Yet liberals, leftists, and Democrats push the goals of the CPUSA instead of protecting the nation and its people. Don't believe it? Then review the CPUSA goals and ask who is supporting them. Here are some significant goals that affect you directly:

13. Do away with loyalty oaths.

Loyalty oaths not only apply to government but also to social areas such as medicine where doctors take oaths about patient medical care.

15. Capture one or both of the political parties in the U.S.

In his book "Reagan's War," Peter Schweizer discusses the degree to which communists and communist sympathizers have penetrated the Democratic Party.

16. Use technical decisions of the courts to weaken basic American institutions, by claiming their activities violate civil rights.

17. Get control of the schools.

Curriculum has been dumb down. DEI and other socialist propaganda is being taught. Socialists now control teacher associations/unions and PTAs.

19. Use student riots to foment public protests against programs or organizations.

20 & 21. Infiltrate the press. Gain control of key positions in radio, TV & motion pictures.

22. Discredit American culture by degrading all form of artistic expression. Eliminate all good sculpture from parks and buildings.

24. Eliminate all laws governing obscenity by calling them "censorship" and a violation of free speech and free press.

25. Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio and TV.

26. Present homosexuality, degeneracy and promiscuity as "normal, natural and healthy."

27. Infiltrate the churches and replace revealed religion with "social" religion. Discredit the Bible and emphasize the need for intellectual maturity, which does not need a "religious crutch."

Demonstrated in churches allowing gay marriages, pastors, deacons, etc.

28. Eliminate prayer or any phase of religious expression in the schools on the grounds that it violates the principle of "separation of church and state" Replacing belief in the creator with belief in the earthly man-controlled State.
29. Discredit the American Constitution by calling it inadequate, old fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis. And replace our nation of "laws, not men" with royal decree emanating from appointed judges and executive orders. Replace elected officials with bureaucrats.
30. Discredit the American founding fathers. Present them as selfish aristocrats who had no concern for the "common man."
31. Belittle all forms of American culture and discourage the teaching of American history on the ground that it was only a minor part of "the big picture."
32. Support any socialist movement to give centralized control over any part of the culture – education, social agencies, welfare programs, mental health clinics, etc.
35. Discredit and eventually dismantle the FBI.
36. Infiltrate and gain control of more unions.
37. Infiltrate and gain control of big business.
38. Transfer some of the powers of arrest from the police to social agencies. Treat all behavioral problems as psychiatric disorders which no one but psychiatrists can understand or treat.
40. Discredit the family as an institution. Encourage promiscuity and easy divorce.
41. Raise children away from the negative influence of parents. Attribute prejudices, mental blocks and retarding of children to suppressive influence of parents.
42. Create the impression that violence and insurrection are legitimate aspects of the American tradition; that students and special interest groups should rise up and make a "united force" to solve economic, political or social problems.

These goals are the work of Satan. They are constantly foisted on the American public until we give in and "accept the inevitable." The only reason we accept them is that we don't have faith in God and are unwilling to stand up to Satan and his collaborators.

**We are in a spiritual war with Satan wanting to destroy all Christians and our nation.**
